Police, Firefighter & Military "Fitness Trainer"

Today, every Police, Fire and Military Agency has a **NEED** for Physical Fitness. However, it may not be practical for all agencies to have a full time fitness staff and facility. Fortunately, most agencies possess fitness oriented, self - motivated individuals with a strong interest in helping others. Now your agency can utilize such existing, internal resources to assist your personnel in improving their various fitness levels.

Fitness Leaders require a background in various topics ranging from physiology to energy metabolism, anatomy to exercises and exercise principals to personal motivation The **911 Fitness Certification** for "**Fitness Leader**" utilizes guidelines established by the American College of Sports Medicine (ACSM); recognized for maintaining the highest standards in the fitness industry. This certification focuses on the practical fitness information needed as a fitness leader within your agency.

Course Topics

- Functional Anatomy & Biomechanics.
- Exercise Physiology
- Human Development
- Pathophysiology / Risk Factors
- Human Behavior / Psychology
- Appraisal & Fitness Testing
